**Subject:** ScienceHub: SDMP Submitted - Action Required

Leeann Mosley has submitted the SDMP for the research effort **Estimating Children's Soil/Dust Ingestion Rates through Retrospective Analyses of Blood Lead Biomonitoring from the Bunker Hill Superfund Site in Idaho**. If you are the supervisor for this research effort, please log into ScienceHub, check to make sure the correct document was uploaded and then submit your approval.

If you do not approve of the submitted document, you'll need to send it back to the research effort lead with comments. The SDM manager will receive similar instructions once the supervisor approves the SDMP.
